Project Engineer
Wipro

12/2021 - Present   *Bengaluru*

Roles & Responsibilities:

- Collaborated with the UI/UX designers to transform design mockups into functional web interfaces.
- Developed clean, efficient, and maintainable code for the front-end of web applications, incorporating HTML, CSS, and JavaScript. Utilized front-end frameworks and libraries, such as React, to improve user interactions and experiences.
- Participated in testing efforts, including unit testing and integration testing, to ensure that the front-end components worked correctly and reliably.
- Created responsive web applications that adapted to various screen sizes and devices by implementing media queries and responsive design principles to ensure a seamless user experience.
- Utilized version control systems like Git to collaborate with other developers, manage code changes, and track the history of the codebase.
